SUBJECT: Vidan Auto Salvage Data Report, Project #107

FROM: John Birri, Chief
Inorganic Chemistry Section *John Birri*

TO: Richard Spear, Chief
Surveillance & Monitoring Branch

THRU: Gerard F. McKenna, Chief
Technical Support Branch *Gerard F. McKenna*

Attached is a copy of the data report for Vidan Auto Salvage, Project #107. Please note that all NVOA hits in samples 97119 and 97120 were qualified with a "J" code due to high surrogate spike recoveries, attributable to matrix interference in both samples. Also, sample 97121, submitted for VOA analysis, contained headspace.
